ANISH KUMAR TIWARI

Data Analyst | Data Science | AI/ML Engineer

Ranchi, Jharkhand, India | +91 7762953029 | at4344958@gmail.com
linkedin.com/in/anish-kumar-tiwari-90412a2b6 | github.com/anish071 | anish071.github.io

PROFESSIONAL SUMMARY

Data Analyst and AI/ML Engineer with a B.Tech in Computer Science and Engineering and hands-on experience in data analytics, machine learning, and deep learning. Skilled in Python, SQL, and Excel, with practical experience in EDA, feature engineering, predictive modeling, CNN, LSTM, transfer learning, and dashboard development using Power BI. Currently pursuing Data Science and AI/ML at Digichrome Academy while gaining industry experience at NextHike IT Solutions.

TECHNICAL SKILLS

Programming: Python, SQL, C++, C, JavaScript, HTML, CSS, Kotlin

Data Analysis: Pandas, NumPy, Excel (Advanced), EDA, Data Cleaning, Feature Engineering, Data Transformation

Visualization: Power BI, Excel Charts, Pivot Tables, Dashboards, Matplotlib, Seaborn

Databases: SQL, PostgreSQL, MySQL, Room

Statistics & ML: Descriptive Statistics, Hypothesis Testing, Correlation Analysis, Regression, Classification, Scikit-learn, Random Forest, XGBoost

Deep Learning & AI: CNN, LSTM, Transfer Learning, Fine-Tuning, LangChain, Multi-Agent Systems, Prompt Engineering

Tools: Jupyter Notebook, Google Colab, VS Code, Git, GitHub

PROFESSIONAL EXPERIENCE

Data Science and AI/ML Intern | NextHike IT Solutions **Present**

- Apply Python, SQL, data analysis, and machine learning skills to assigned data science and AI/ML project requirements.
- Gain practical industry experience through real-world project tasks and collaboration with cross-functional teams.

Full Stack Development Trainee | Tata Steel, West Bokaro **Jul 2025 – Sep 2025**

- Developed and maintained web applications and REST APIs with cross-functional engineering teams.
- Integrated database systems and participated in code reviews and software testing.

PROJECTS

Model Doctor – Automated ML Audit Toolkit

Tech Stack: *Python, Pandas, NumPy, Scikit-learn*

- Built a Python-based ML auditing toolkit to programmatically detect common pipeline issues such as data leakage, train/test contamination, misleading metrics, and overfitting signals.
- Designed structured audit reports explaining the issue, why it matters, and suggested fixes, with deliberately flawed pipelines used as test fixtures.
- Designed the auditor to support arbitrary tabular datasets and multiple model types rather than a single hardcoded demo.

GitHub: github.com/anish071/model-doctor

User Analytics in the Telecommunication Industry

Tech Stack: *Python, Pandas, NumPy, Scikit-learn, MySQL, Dashboard*

- Analyzed telecom xDR data across user overview, engagement, experience, and satisfaction to identify customer behavior and business insights.
- Performed data cleaning, EDA, correlation analysis, PCA, K-means clustering, and engagement/experience scoring.
- Built satisfaction analysis with regression, exported final user scores to MySQL, and prepared a web-based dashboard/report for business decision-making.

GitHub: github.com/anish071/test

CropGuard AI – Crop Disease Detection Platform

Tech Stack: *Python, FastAPI, React, PostgreSQL, CNN*

- Built a full-stack crop disease detection platform using a CNN image classification model, achieving approximately 92% accuracy on offline inference.
- Developed REST APIs with FastAPI, integrated PostgreSQL, and designed an analytics dashboard for prediction reports and recommendations.

GitHub: github.com/anish071/Ai-Crop

Capstone Project – Predicting Property Prices

Tech Stack: *Python, Pandas, Scikit-learn, Matplotlib*

- Collected and cleaned real-estate data, engineered features including area, location, BHK, bathrooms, and amenities.
- Handled outliers and compared Linear Regression, Random Forest, and XGBoost models to generate pricing insights.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science and Engineering | Usha Martin University, Ranchi **2022 – 2026**

Data Science and AI/ML | Digichrome Academy (Currently Pursuing) **Feb 2026 – Jan 2027**

Cloud Computing | NPTEL, IIT Kharagpur **Jan 2026 – Apr 2026**
