ANISH KUMAR TIWARI

Data Analyst | SQL, Python, Power BI, Tableau, Excel
Ranchi, Jharkhand, India | +91 7762953029 | at4344958@gmail.com
LinkedIn: linkedin.com/in/anish-kumar-tiwari-90412a2b6 | GitHub: github.com/anish071 | Portfolio: anish071.github.io

PROFESSIONAL SUMMARY

Data Analyst-focused B.Tech Computer Science graduate with hands-on experience in SQL, Python and data analysis, including analysis of 1M+ retail sales records and telecom user analytics. Skilled in data cleaning, EDA, feature engineering, data visualization and machine learning, with projects spanning sales forecasting, customer analytics and an automated ML auditing toolkit. Seeking Data Analyst, Junior Data Analyst, BI Analyst and Reporting Analyst roles.

TECHNICAL SKILLS

Data Analysis: Python, Pandas, NumPy, Excel, EDA, Data Cleaning, Data Transformation, Feature Engineering
SQL & Databases: SQL, MySQL
BI & Visualization: Power BI, Tableau, Data Visualization, Dashboards, Matplotlib
Statistics & ML: Correlation Analysis, Regression, PCA, K-Means Clustering, Machine Learning, Scikit-learn
Tools: Jupyter Notebook, Google Colab, VS Code, Git, GitHub

PROFESSIONAL EXPERIENCE

Data Science and AI/ML Intern | NextHike IT Solutions | May 2026 - Present

- Apply Python, SQL, data analysis and machine learning to assigned data science and AI/ML project tasks.
- Collaborate with cross-functional teams on real-world project requirements.

Full Stack Development Trainee | Tata Steel, West Bokaro | Jul 2025 - Sep 2025

- Developed and maintained web applications and REST APIs with cross-functional engineering teams.
- Integrated database systems; participated in code reviews and software testing.

PROJECTS

Rossmann Sales Forecasting
Tech: Python, Pandas, NumPy, Scikit-learn, Data Visualization | **GitHub:** github.com/anish071/Rossmann_AI_Forecasting

- Analyzed 1M+ training records of retail sales data with store-level information.
- Performed data cleaning, EDA and feature engineering on promotions, holidays, stores and customer behavior.
- Developed a sales forecasting workflow and prepared predictions and visualizations for retail business forecasting.

User Analytics in the Telecommunication Industry
Tech: Python, Pandas, NumPy, Scikit-learn, MySQL, Dashboard | **GitHub:** github.com/anish071/test

- Analyzed telecom xDR data across user overview, engagement, experience and satisfaction to identify customer behavior and business insights.
- Performed data cleaning, EDA, correlation analysis, PCA, K-means clustering and engagement/experience scoring.
- Built satisfaction analysis with regression, exported final user scores to MySQL and prepared a web-based dashboard/report for decision-making.

Model Doctor - Automated ML Audit Toolkit
Tech: Python, Pandas, NumPy, Scikit-learn | **GitHub:** github.com/anish071/model-doctor

- Built a Python toolkit to detect data leakage, train/test contamination, misleading metrics and overfitting signals.
- Designed structured audit reports explaining detected issues, why they matter and suggested fixes, tested on deliberately flawed pipelines.
- Built the auditor to support arbitrary tabular datasets and multiple model types rather than a single hardcoded demo.

Capstone Project - Predicting Property Prices
Tech: Python, Pandas, Scikit-learn, Matplotlib

- Collected and cleaned real-estate data; engineered features including area, location, BHK, bathrooms and amenities.
- Handled outliers and compared Linear Regression, Random Forest and XGBoost models to generate pricing insights.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science and Engineering | Usha Martin University, Ranchi | 2022 - 2026
Data Science and AI/ML | Digichrome Academy | Currently Pursuing
Cloud Computing | NPTEL, IIT Kharagpur | Jan 2026 - Apr 2026
